

Beaver Deceivers International

Skip Lisle, M. Sc.

Skip Lisle is a flow device pioneer and inventor with over 25 years of experience. His devices have been adopted across North America and Europe. He is a passionate biologist, conservationist, builder, scientist, inventor and entrepreneur.

In addition to solving beaver-human conflicts in a long-lasting, non-lethal, and economical manner, Skip gives presentations on all manner of beaver behavior and history, conducts flow device workshops, and helps clients improve wildlife habitats. Based in Vermont, he works throughout North America and in Europe.
