## **BeaverCorps Grant Program** **Application Form**

Thanks to generous funding from the **Animal Welfare Institute and others**, the Beaver Institute has created a grant program to financially incentivize landowners to hire BeaverCorps professionals to nonlethally resolve beaver issues and restore wetlands. The goal of the program is to increase beaver wetlands to improve climate resilience.

### **Who can participate?**

Any BeaverCorps member in good standing.

### **Grant amount?**

BeaverCorps member clients are eligible for up to 1/3 of the total project costs for any nonlethal conflict prevention or beaver mimicry wetland restoration project. Your client is expected to pay the remainder of your bill. Maintenance costs are the applicant's responsibility.

### **What are the criteria?**

A willingness of the landowner/client to avoid beaver removal, and/or encourage beaver occupancy at a site. Financial investment is required from the landowner/client. Approval from all permitting authorities is also required.

### **Submit this application to:**

[loren@beaverinstitute.org](mailto:loren@beaverinstitute.org)

### **Client Selection:**

Consider the needs and motivations of prospective clients for financial incentives. We suggest you choose a high-profile, high-impact, or important client site to maximize your potential exposure to generate new projects.
