CT Beaver Initiative: Grant Assistance Program

Thanks to funding from the **John T. and Jane A. Wiederhold Foundation**, the Beaver Institute has created a grant program to nonlethally resolve beaver issues. These Connecticut Beaver Initiative grants will assist with installation of water flow devices to economically, non-lethally, and ecologically mitigate beaver-related flooding in CT.

Who can participate? Any individual, town, business, or organization in Connecticut.

What are the criteria? A willingness of all parties involved to resolve problems non-lethally for the long term, a site that is conducive to flow device usage, and permission of the landowners and the local Inland Wetlands Commission to install the water flow devices. Financial investment is required from the applicant.

How do I request assistance? First, obtain a professional estimate for the installation of the beaver flow device. Then send this completed application to the Beaver Institute for consideration.

Funding assistance: The amount of each grant award will depend upon the number of grant requests, the amounts of those requests, and the size of your project. Grant awards often pay for 1/3 of the flow device installation, but larger awards are possible for nonprofits and other applicants with significant funding limitations. Maintenance costs are the applicant's responsibility.

Deadline: Grant applications will be accepted in 2023 until funding is exhausted. Requests will be considered in the order in which they are received, but financial need can play a role in some cases when funding is limited.

Send requests to: Beaver Institute Inc., CT Beaver Initiative Committee,
14 Mountain Road, Southampton, MA 01073;
OR, scan and e-mail to: grant@beaverinstitute.org.
