BeaverCorps Grant Program
Application Form

Thanks to generous funding from the **Animal Welfare Institute and others**, the Beaver Institute (BI) has created a grant program to financially incentivize landowners to hire BeaverCorps professionals to nonlethally resolve beaver issues and restore wetlands. The goal of the program is to increase beaver wetlands to improve climate resilience.

Who can participate?
Any individual, town, business, or organization in North America interested in hiring a BeaverCorps Professional or BI Approved Beaver Professional to nonlethally resolve conflicts or restore wetlands.

Grant amount?
Applicants are eligible for up to 1/3 of the total project costs for any nonlethal conflict prevention or beaver mimicry wetland restoration project. Maintenance costs for devices are the applicant's responsibility and not applicable for funding.

What are the criteria?
A willingness of the landowner/client to avoid beaver removal, and/or encourage beaver occupancy at a site. Financial investment is required from the landowner/client. Approval from all permitting authorities is also required.

How do I request assistance? First, obtain a professional estimate for the installation of the beaver flow device. Then send this completed application to the Beaver Institute for consideration.
